Helen Zuzik: I have already circulated to members on the Internet the passing of this good lady which took place by a rare coincidence while I myself was briefly in the same hospital.

My predecessor, Fr Felix Carosso began the HFI many years ago and found a number of candidate of which one couple - the Bairds – went on to Final Profession. However the then-Provincial stopped the work, leaving some people untested/ When I began, I had a short list of these but only one wanted to continue in HFI, Helen.

In all the years since up to Final Profession she remained an exemplary candidate and professed member in spite of some particularly painful episodes in her life. She suffered from arthritis and other ills but she never failed to correspond each month and to attend our meetings when she was able. And the HFI was far from being the only Movement to which she belonged.

My God grant her a specially-joyous Paradise together with her dear ones and the other local members who have already entered into the joy of the Lord.
